

## Data Conversion

Fields that will be converted from Practice Director to Eye Cloud Pro:

### Patient Demographics

Last Name	Zip	Work Phone
First Name	City	Mobile Phone
Middle Name	State	DOB
Prefix/Salutation	Country	Chart #
Preferred Name	SSN	Email address
Address (Street Line 1)	Sex/Gender	
Apt/Suite (Street Line 2)	Home Phone	

### Final Glasses and Contact Lens Prescriptions including comments and recommendations

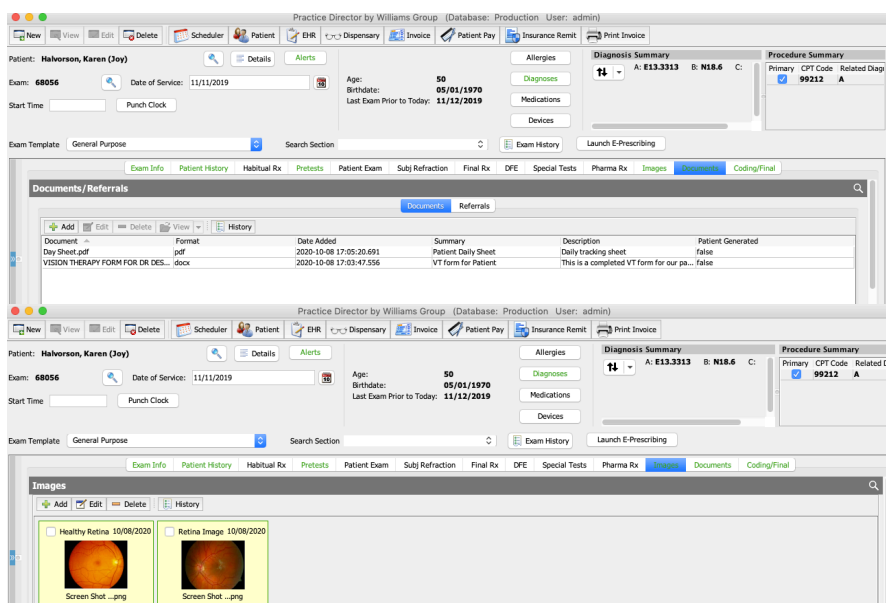

This information comes from the Final RX tab of the EHR. Exam must be marked **“Completed”** or **“Completed Non-Billable”**, the prescription must be marked **“Final”**, the prescription was created in the last 3 years. Expiration date between created date and 2 years in future.

### PDF Scans of Exams

These are pdf documents of exams marked as **“Completed”** or **“Completed Non-Billable”** within Practice Director for the last seven years

### EHR Documents and Images for the last three years

These are documents and images that have been saved within the EHR documents and images tab.

## Patient Recalls

All active recall and recall reasons that have been established for a patient

## Patient Alerts

These are alerts that were entered into the alerts button throughout Practice Director

## Patient Notes

These are notes that were entered into the Patient Demographic Notes tab

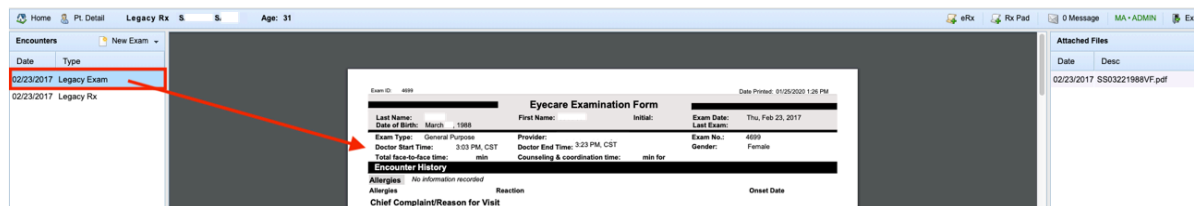

## Patient Appointment Book/Schedule

Previous year appointments and then future appointments for the next three years. We also convert your appointment types and colors.

Access to Practice Director without additional fees, once you have converted (for historical data reference) \*when installed locally.

## Completed EHR Conversion

Exams display down left side of screen with the exam date and are labeled “Legacy Exam” when you select an exam you see the PDF document of the exam.

If documents and or images were attached in the EHR they will display to the right and you can select to view.
